

## MB 805 - Production MatteBox for Cine and TV, versatile upgradeable, package for 19 mm

**Start Package MB 805**

### Complete Packages

for 15 and 19 mm rods are equipped with 2 filter holders, multiformat 4x5.56" / 5x5" (510-01) and 4x4" / 4x5.56" (410-31).

### Max. wide angle focal length of other formats, F=mm:

S16: 5 / 6 / 7 / 10  
 S35: 9 / 10 / 12 / 18  
 still: 15 / 17 / 20 / 29  
 SD: 3.6 / 4.1 / 4.8 / 7.2

### Production MatteBox with Swing-Away-Design, starter set with Single Filter Stage

Swing-Away-Design for quick and easy lens change.

The built-in Single Filter Stage accommodates a further Single, Double or Triple Filter Stage through a quick-lock. All further stages rotate. All 150mm filter holders can be used. For use of the maximum angle of field\*, we deliver and recommend the following set:

The first fixed stage is equipped with a multi format filter holder for 4x4 and 4x5.650 filters. The additional single stage should be equipped with a 5x5 and 4x5.650 multi-format filter holder (FH 510-01). For the dual and triple-filter-stage, we recommend the 4x4 and 4x5.650 multi-format filter holder (FH 410-31). The swing-away bracket mounts on light weight supports with 15mm rods, or by means of adaptors to bridge plates with 15 or 19 mm rods.

The connecting diameter is 142.5mm. Light prevention rings exist for all prime and zoom lenses of film and SD/HD TV-camera.

A large foldable French Flag is part of the set.

Side Wings are optional. For maximum stray light reduction, sets of mattes in the formats 4:3 and 16:9 are available.

A **package for 19mm support** is also available. Usable max. wide angle is F=9 / 10 / 12 / 18 mm depending on stages used.

### Technical data:

Max. wide angle focus length <b>2/3" HD Chip</b>	3,9 / 4,3 / 5,1 / 7,7
other formats please see table on the left F=mm
