All Cine-Xenar lenses feature

- telecentric optical design – optimised for digital cine cameras
- outstanding Bokeh due to 12, 14 and 18! iris blades
- excellent sharpness over the entire picture
- no distortion
- all T 2
- outstanding cost / quality relation
- the focus movement is fully compensated by the Chrosziel accessories with the Studio Rig follow focus and MatteBox 456 Academy Double (for more details please see tech sheets)
